Full Stack Engineer

Technical Skills

Azure, Git, DevOps, Javascript, JQuery, AngularJs, NodeJS, MongoDB, ExpressJS, Twitter Bootstrap, React, Java, HTML, CSS, SCSS

Work Experience

Application Developer

One Number

March 2016 - present (Remote)

- ❖ I design, develop, deploy and test software solutions which meet the needs of the company's core business.
- ❖ I provide expertise in system design and the creation of functional specifications for new software projects.
- ❖ I identify modifications needed in existing applications to meet changing business requirements.
- ❖ I maintain a mobile service delivery platform that consists of a subscription manager, content management & delivery system and SMS gateway for sending and receiving text messages.
- ❖ I full-stack-develop using AngularJS, Javascript, HTML, CSS, ExpressJS, Mongoddb and Node.

Web Developer Intern

INTELS NIGERIA LIMITED – Onne , Rivers

(May - Dec. 2012)

- ❖ Selected for six-month internship out of over 180 applicants
- ❖ Helped to redesign the Internet and Intranet pages. Used SEO best practices to optimize website for search engine ranking.
- ❖ Successfully built the API backend as well as the user interface (frontend) for visitor management software. The API was consumed by mobile

applications for different platforms designed for managing visitor check-ins and check-outs in the organization.

- ❖ I transformed requirements and product specification to code using mainly the PHP framework Laravel, HTML, CSS, and JavaScript. I built and maintained WordPress websites for numerous clients.

Other Experiences:

- ❖ Financial Planner/Insurance Agent at American International Insurance Company (AIICO) PLC
- ❖ Customer Service Executive at Chemical Allied Products (CAP) PLC.
